I can positively say that my Institute named Sri Padmavathi Women's Polytechnic and department of Commercial and Computer Practice has made me a better person. It has helped me develop a positive attitude towards my studies and discover more about myself. Teachers are very caring and interested in students' well-being. They make sure every class is educational, interactive and fun.

One of the best practices followed by the college, which is distinctive also is that it provides an opportunity for On-Campus Interview and Job Fair. It helps the students to become career oriented and get an insight of the real competitive world. Here, even sessions are arranged for personality development, resume & CV preparation, etc. Orientation Programs are arranged so as to familiarize us with the companies that will recruit us. It helps the students when they reach on the verge of completion of their diploma to see what it is like to be in the real world. SPWP was the best place to earn my diploma and gave me a proper foundation to be successful in Secretarial skills and made me to be a part in SHAR."

A perfect blend of scholastics and co-curricula's, education and fun, seminars and workshops! This is SPWP! A place where formal education is met with such skills and mentoring that it becomes easy to learn and implement, a place where informal education is given as much importance as formal education, a place where it is believed that bookish knowledge would give diploma but practical knowledge would enable fortune making.

Smt. H. SRIVIDYA,  
Senior Lecturer in CCP,  
Government Polytechnic for Women, Palamaner.

SPWP has opened the golden door towards many life changing opportunities. It is the best platform to enhance the skills and nourish the hidden talents of students. The faculty here, being so thoughtful, believes that formal education will make a living but self-education will make a fortune! The college has many special and distinctive features which makes the college environment friendly, educative and innovative which made me to become as a lecturer. Using modern technology for the purpose of teaching makes it very interesting for the students and keeps them engaged in the process of learning.

Smt. S. VALLI PAVANI  
Lecturer in CCP  
Government Polytechnic for Women, Palamaner

The College provides an excellent opportunity in the form of 'Career Expo' to the students in order to face the real world of employment and the real life employers. Facing campus interviews not only boost our level of confidence but also provide a lucrative opportunity to the students to get a job. The youth of today is bubbling with energy and talent and SPWP rightly serves as a platform to broaden our outlook and gives us the chance to explore the hidden talents in us. There are numerous and varied co-curricular activities in the domain of fine arts and literature carried out in the college all the year round. Many Inter and Intra college competitions are conducted by the college which provides us with an opportunity to showcase our potential and groom our overall personality.

"I came into the Diploma in CCP with no background in Accounting. I was looking to make career change, and this program allowed me to do that in exactly one year. This programme gave me tools that I needed to be successful in the graduate-level courses. The DCCP program is holistic in that it offers a wide variety of Accounting classes as well as professional development opportunities. Additionally, the unwavering support of the faculty, alumni, and fellow students propelled me to be successful not only inside of the classroom but also while I was recruiting with accounting firms. SPWP was the best place to earn my diploma and gave me a proper foundation to be successful in Secretarial skills."

**A.USHA DEVI**

**Sr. Executive, Future Retail Company, Bangalore**

“I can say with great certainty that my education at SPWP, specifically the DCCP program, provided me with the tools to succeed and overcome many of the challenges created by the project and along the way I’ve been promoted to a management positions as a senior accounting systems analyst. I highly encourage and recommend this program to the students seeking a career change or growth.”
