

ACADEMIC YEAR INDUSTRIAL VISITS

The industrial visit is considered one of the most tactical methods of teaching. It provides students with an opportunity to learn practically through interaction, working methods and employment practices. Visiting a company gives students a practical perspective on the world of work, it gives them exposure to current work practices as opposed to possibly theoretical knowledge being taught at college.

Industrial visits are an essential part of the academic curriculum, with a view of getting insight regarding the internal working environment of a company and how a company functions, as well as useful information related to the practical aspects of the educational course which cannot be visualized in lectures. The objective of the Industrial Visit is to help students gain first hand information regarding functioning of the Industry Which presents the students with opportunities to plan, organize and engage in active learning experiences both inside and outside the classroom.

Being a part of interactive learning, such educational visits give students a major exposure to real working environments along with a practical perspective of a theoretical concept relevant to their domain. In addition to that, industrial visits bridge the widening gap between theoretical learning and practical exposure by giving students the first-hand exposure to identify the inputs and outputs for different business operations and processes performed at the workplace.

Intending to go beyond classroom learning, the industrial tours contribute a lot in holistic student development by letting students learn about the current trends in the market, the future scenario of the industry and the new technologies that are being applied in the industry.

Specific objectives for the students

- To become aware of the role of different people in an organization
- To understand the process
- To become aware of career opportunities
- To recognize the need for health and safety in the workplace
- To focus students on specific aspects of their studies

DEPARTMENT OF ECE

INDUSTRY VISIT

S. NO	YEAR	DETAILS
01	2017	NARL, Gandanki, Chittoor
02	2018	SHAR Centre , Sullurpeta
03	2019	SHAR Centre , Sullurpeta NARL, Gandanki, Chittoor
04	2020	SHAR Centre , Sullurpeta NARL, Gandanki, Chittoor
05	2022	NARL, Gandanki, Chittoor
06	2023	SHAR Centre , Sullurpeta NARL, Gandanki, Chittoor
07	2024	SHAR Centre , Sullurpeta

Place/Industry

National Atmospheric Research Laboratory(NARL), Tirupati
