A perfect blend of scholastics and co-curricula's, education and fun, seminars and workshops! This is SPWP! A place where formal education is met with such skills and mentoring that it becomes easy to learn and implement, a place where informal education is given as much importance as formal education, a place where it is believed that bookish knowledge would give diploma but practical knowledge would enable fortune making.

"I came into the Diploma in CCP with no background in Accounting. I was looking to make career change, and this program allowed me to do that in exactly one year. This programme gave me tools that I needed to be successful in the graduate-level courses. The DCCP program is holistic in that it offers a wide variety of Accounting classes as well as professional development opportunities. Additionally, the unwavering support of the faculty, alumni, and fellow students propelled me to be successful not only inside of the classroom but also while I was recruiting with accounting firms.
